WE DEVELOP AND PRODUCE PHARMACEUTICALS & FOOD SUPPLEMENTS

Aconitum is a privately-owned full integrated pharmaceutical manufacturer founded in 1999 and located in Lithuania (EU member since 2004).

Aconitum, UAB currently operates in a modern manufacturing plant according to EU GMP requirements.

Manufacturing plant contains modern GMP certified microbiology and chemical laboratories.

INNOVATIONS HUB:

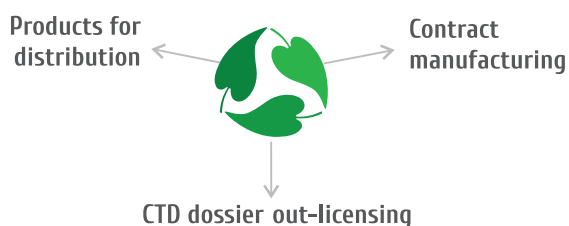

Aconitum, UAB
Kaunas, Lithuania

Aconitum Swiss, SARL
Courfaivre, Switzerland

ACONITUM OFFERS:

PORTFOLIO STRUCTURE:

- Biomaterials
- Herbal medicines
- Medical devices
- Food supplements
- Veterinary products

QUALITY STANDARDS:

for medicines production

for food supplement production

for production of products for Islamic markets

TRUSTED BY:

& more than 75 other

BUSINESS PARTNERS

Clients from more than **80** countries trust Aconitum as a reliable and experienced manufacturing partner.

Clients are loyal to the company:

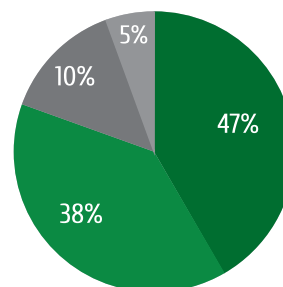

9 years is the average partnership time.

92% of satisfied clients, who received their orders on time.

84% of grateful clients, who evaluate our export managers as the best worked with.

TEAM OF PROFESSIONALS

There are over **100** employees working in the company. **70%** of them have university degree.

- Pharmacy and chemistry
- Business management and marketing
- Medicine
- Engineering

Employees are loyal to the company:

6 years is the average working time.

Highly experienced team:

19 years is the average experience time in pharmaceutical market.

Company values employees' "Know-how":

15% of employees work in the company since the beginning.

PHARMACEUTICALS

Vinpocetine- aconitum

5 / 10 mg vinpocetine

40 HARD CAPSULES
50 TABLETES

Pharmaceuticals

CHARACTERISTICS AND EFFECTS

Vinpocetine

Vinpocetine is a time-tested remedy for the treatment of cerebral blood flow.

Cerebrovascular disorders are some of the most common causes of death and disability in the world, especially in industrialized countries. Stroke is the most common neurological cause of permanent incapacity as well as the decisive factor in high mortality. Cerebrovascular disorders occur during the life of many people (especially in older age) due to: brain artery atherosclerosis, thrombosis, cerebral hemorrhage or temporary cerebral circulatory disorders.

In the initial stages cerebral circulatory disorders can lead to mild symptoms: mild memory loss, confusion or random lack of concentration and attention, more difficult memorisation during learning, impaired performance at work, insomnia, unstable balance and gait.

COMPOSITION

	1 tablete contains
Vinpocetine	5 / 10 mg
	1 capsule contains
Vinpocetine	5 / 10 mg

DOSAGE

Adult patients

5 mg - during the first 30 days take 1-2 capsules or tablets (5-10 mg) three times daily. Subsequently, the dose may be reduced to 1 capsule or tablet (5 mg) three times daily. The maximum daily dose is 30 mg of vinpocetine.

10 mg - take 1 capsule or tablet 10 mg) three times daily after meals (equivalent to 30 mg daily dose).

Elderly patients

Usually no dose adjustment is required for elderly patients. For patients with hepatic or renal impairment dose adjustment is required.

Children and adolescents

The effects of **VINPOCETINE-aconitum** in pediatric patients have not been studied. Persons younger than 18 years of age must not use the product.

The active substance vinpocetine improves brain blood flow, reduces the brain cell sensitivity to the lack of oxygen and protects them from the damage. It is essential that, acting on cerebral blood vessels, the active substance does not increase the total blood pressure. It also improves the metabolism in the brain. It has been observed that vinpocetine has a positive effect on cognitive function and improves memory. Various studies have shown that vinpocetine increases the tolerance of mental, physical and emotional load.

Complex effects of VINPOCETINE-aconitum:

- selectively activates the cerebral blood flow and microcirculation;
- improves cerebral metabolism and blood rheology;
- acts as a neuroprotectant.

CTD

Form - tablets / hard capsules

Dossier type - bibliographic

Therapeutic category - optimizes brain circulation (ATC: N06BX18)

Registration status - **tablets** registered in Lithuania, Vietnam, Bulgaria, Bosnia and Herzegovina / **hard capsules** registered in Lithuania; Under registration in other countries

Scientific Proof

Livosil

Silymarin 140 mg

30 HARD CAPSULES
60 HARD CAPSULES

Pharmaceuticals

CHARACTERISTICS AND EFFECTS

Silymarin

Silymarin for natural liver protection and treatment!

Liver is one of the most important human organs that performs more than 500 different functions. The most important of them is detoxification, i.e. liver removes toxins, alcohol and other harmful substances such as ammonia from the body. Patients with liver problems do not feel any pain or disorders, so they may not determine when liver is damaged. Consumption of drugs, fatty foods, alcohol not only adds fat to liver, but also damages them. Milk thistle is one of the oldest known herbal plants in medicine. It's most important part is the biologically active substance -silymarin. Silymarin inhibits the effect of liver damaging (hepatotoxic) substances, promotes regeneration of damaged liver cells, acts as an antioxidant, i.e. increases the levels of the main liver antioxidant - glutathione - in the liver.

Medicine is created for the treatment of:

- toxic liver damage;
- liver cirrhosis;
- chronic hepatitis.

Livosil - herbal remedy that protects the liver, restores its cells after chemical drugs, fatty foods, alcohol and viral infections.

Always use **Livosil** capsules precisely as prescribed by physician. In all cases it is recommended to consult with your doctor or pharmacist. The medicinal product should be used not less than 3 months.

CTD

Form - hard capsules

Dossier type - bibliographic

Therapeutic category - liver therapy (ATC: A05BA03)

Registration status - registered in Lithuania, Vietnam

COMPOSITION

	1 capsule contains
Silymarin (from Milk thistle (<i>Silybum marianum</i>) extract)	140 / 22,5 mg

DOSAGE

Adult patients

140 mg - the usual Livosil dose for adults is 280 to 420 mg per day. You can take one 140 mg hard capsule twice a day or one 140 mg hard capsule three times a day.

22,5 mg - you can take three or four 22,5 mg hard capsules 3 times a day.

Elderly patients

For elderly patients with renal impairment dose adjustment is not required.

Children and adolescents

Livosil is not recommended for children and adolescents under 18 years of age.

 Scientific Proof

Ginkobil

60 / 80 / 120 mg ginkgo extract

40 HARD CAPSULES

Pharmaceuticals

CHARACTERISTICS AND EFFECTS

Ginkgo extract

Dementia. This is a drop of intellect caused by a variety of diseases, accompanied by the damage of other mental functions and changes of perception, behaviour and other physical symptoms. This disorder can occur in case of various brain diseases and disorders, generally at an older age. It is assumed that it is caused by disturbed brain chemical metabolism. Dementia often is caused by high blood pressure, atherosclerotic vascular lesions, etc.

Dizziness and ringing in the ears. It should be noted that it is not only a problem of the elderly that occurs with impaired cerebral circulation.

Cold limbs. Disruption of blood flow often leads to swollen legs, cold limbs and dizziness. Narrowing of the arteries means that less blood is delivered to the legs and arms, so they start to cool. Most often this occurs because of fatigue, anxiety, stress, fluid and micronutrient deficiency.

Ginkgo extract and its active ingredients significantly improve cerebral and peripheral blood flow, brain cell condition, lower blood viscosity and improve memory.

Ginkobil is made from refined and quantified dry extract of ginkgo which treats:

- dementia;
- memory and attention disorders;
- dizziness and ringing in the ears;
- leg pain due to circulatory problems.

COMPOSITION

	1 capsule contains
Ginkgo extract (Ginkgo biloba)	60 / 80 / 120 mg

DOSAGE

Ginkobil hard capsules are taken by mouth after a meal, whole and with liquid.

Symptomatic treatment of organic disorders of brain activity.

60 mg - take 2 capsules 1-2 times daily (equivalent to 120 - 240 mg daily dose).

80 mg - take 1 capsule 2-3 times daily (equivalent to 160 - 240 mg daily dose).

120 mg - take 1 capsule 1-2 times daily (equivalent to 120 - 240 mg daily dose).

Increased walking distance free of leg pain if you suffer from peripheral arterial occlusion and vascular lesions or reduction of vertigo and tinnitus caused by senile changes.

80 mg - 1 capsule 2 times daily (equivalent to 160 mg daily dose).

120 mg - take 1 capsule 1-2 times daily (equivalent to 120 to 240 mg daily dose).

VIRONOX

Immuno Booster +

7 SACHETS
14 SACHETS

Food supplement

CHARACTERISTICS AND EFFECTS

-  **Support immune system and well-being**
-  **Activate existing immune cells**
-  **Stimulate new immune cells production**

VIRONOX IMMUNO BOOSTER+ Is a broad-spectrum food supplement with carefully selected ingredients, which supports important functions of the body and general well-being. Food supplement was developed based on various research projects in collaboration with Virology Institute of the Lithuanian University of Health Science (LUHS).

Strengthens both innate and adaptive immunity, reduces the duration and severity of colds and other upper respiratory infections, and when taken at the first signs of illness, can shorten the duration of the illness by up to 44%.

COMPOSITION

	1 sachet contains
Quercetin from common seabuckthorn (Hippophae rhamnoides) fruits extract	500 mg
Lysine	500 mg
Beta glucans from oat (Avena sativa) seeds extract	500 mg
Guarana (Paullinia cupana) seeds extract	200 mg
Propolis powder	200 mg
Vitamin C	1000 mg (1250%*)
Zinc	40 mg (400%*)
Ginger (Zingiber officinale) roots extract	500 mg

*NRV_s- nutrient reference values

DOSAGE

Pour the content of sachet into a glass (150-200 ml) of water, mix, dissolve and drink.

Epigenetic effects

Quercetin can alter the expression of several human genes encoding protein targets of SARS-CoV-2. Ginger caused statistically significant increase in FoxP3 genes expression. FOXP3 is an essential molecular marker of Treg development and function in the thymus and peripheral lymphoid organs.

Marshmallow (Althaea officinalis) roots extract	200 mg
Passionflower (Passiflora incarnata) flower extract	100 mg
Niacin	50 mg NE (313%*)
Riboflavin (Vitamin B ₂)	10 mg (714%*)

*NRV_s- nutrient reference values

DOSAGE

Pour the content of sachet into a glass (200 ml) of water, mix, dissolve and drink. Use 1 sachet per day for at least 14 days.

EPIGENETIC LINE

VIRONOX HERBUS line

20 LOZENGES

CHARACTERISTICS AND EFFECTS

Relieves irritated throat and pharynx

Helps maintain natural body defense and support normal immunity function

Helps boost vitality, maintain energy and fight fatigue

Helps maintain normal condition of respiratory tract

Vironox HERBUS natural herbal lozenges are for strong immune system, soothed throat and relieved cough. Lozenges contain natural herbal extract which have a positive effect on the respiratory tract, vocal cords and immune system. This line was created according to traditional medicine recipes used for hundreds of years and based on new epigenetic principles.

Lozenges for the throat offer triple action — anti-inflammatory, soothing, and antimicrobial—capable of reducing cold symptoms by up to 88% and shortening the duration of illness. The lozenges with hyaluronic acid and Icelandic moss instantly soothe the irritated throat mucosa, provide long-lasting hydration, and protect against further irritation.

SUPRA FORMULA MENOPAUSE

14 X 25 ml | 350 ml

Liquid food supplement

CHARACTERISTICS AND EFFECTS

Helps to maintain normal state during menopause

Helps to maintain the normal formation of collagen which is necessary for normal skin function

Contains phytoestrogens isoflavones. Isoflavones are natural phytoestrogens which are similar to the natural estrogens of the body and simulate their effects.

Helps to maintain normal skin, hair and nails condition

Supra formula Menopause contains premium highly bioavailable Peptan® Hydrolysed Type 1 collagen. Peptan® are bioactive collagen peptides that have been specifically developed to deliver multiple health benefits and functional properties. Red clover flower extract helps maintain a normal state and a normal overall cholesterol concentration in the blood for women during menopause. Helps maintain normal bone condition and normal cardiovascular system activity.

The supplement with phytoestrogens helps reduce menopause symptoms such as hot flashes and anxiety, improves skin elasticity, provides energy, and supports digestive health.

 Scientific Proof

COMPOSITION

	1 vial (25 ml) contains
Red clover (<i>Trifolium pratense</i>) flowers extract	250 mg
Soybean (<i>Glycine max</i>) seeds extract	125 mg
Collagen Peptan®	7000 mg
Vitamin C	40 mg (50%*)
Selenium	50 µg (91%*)

EPIGENETIC LINE

SUPRA FORMULA

Collagen complex

175 ml

Liquid food supplement

CHARACTERISTICS AND EFFECTS

Induce collagen synthesis, promote antioxidative activity, produce stronger collagen fibrils

Helps skin to retain moisture and elasticity, help to maintain normal skin condition

Help to protect cells from oxidative stress

SUPRA FORMULA contains premium highly bioavailable Peptan® Hydrolysed Type 1 collagen. Peptan® are bioactive collagen peptides that have been specifically developed to deliver multiple health benefits and functional properties. Hyaluronic acid is a natural component of the skin. Only when the hyaluronic acid level in the skin is sufficient, it becomes radiant and smooth. Hyaluronic acid is involved in the natural skin renewal process, so you shall soon notice how the skin exhausted by sun rays, dry air, cold or cosmetic becomes healthy, elastic and soft. Hyaluronic acid can also help the skin retain moisture, therefore, you shall no longer feel irritation or stretching that is normal to dehydrated skin.

COMPOSITION

	1 serving (25 ml) contains
Collagen	7000 mg
Vitamin C	40 mg
Hyaluronic acid	20 mg
Zinc	10 mg
Silicon	5 mg
Selenium	50 mcg
Biotin	50 g

DOSAGE

Take 25 ml per day.

Scientific Proof

14X 25 ml

14X 25 ml

Liquid food supplement

CHARACTERISTICS AND EFFECTS

DNA

Helps to maintain normal DNA synthesis and skin condition

Helps to maintain the normal functioning of hair, nails and immune system. Helps to protect cells from oxidative damage

NMN SPN

With nikotinamide mononukleotide (NMN) and spermidine (SPN)

For beauty and longevity

COMPOSITION

NMN

	1 vial (25 ml) contains
Nikotinamide mononukleotide (NMN) from plant extract	250 mg
Quercetin (from Japanese pagoda-tree (Sophora japonica) extract)	150 mg
Zinc	10 mg (100%*)

*NRV_s- nutrient reference values

SPN

	1 vial (25 ml) contains
Spermidine (SPN)	3 mg
Astaxanthin (from freshwater green algae (Haematococcus pluvialis) extract)	2 mg
Hyaluronic acid	50 mg
Selenium	55 µg (100%*)

*NRV_s- nutrient reference values

DOSAGE

Drink 1 vial (25 ml) per day. Use according to the weeks written on the packaging.

The supplement **Jeunesse** with NMN and spermidine helps restore cell health and combat aging processes, promoting longevity, enhancing energy production, tissue regeneration, and protecting against age-related diseases.

NAD⁺ and spermidine (SPN) are found in every body cell. The levels of both molecules decrease with age.¹ The decrease of NAD⁺ within the body is associated with oxidative stress, inflammatory processes, DNA damage and weakened immune system functioning.² The product contains NMN (nicotinamide mononucleotide), which is a natural compound that can be used by the body to produce NAD⁺.³ The NAD⁺ molecule (nicotinamide) is responsible for energy production and is involved in many other metabolic processes. Spermidine is essential for tissue regeneration, cell growth and cell division. It contributes to many cellular processes.

Osteomax

60 CHEWABLE TABLETS

Food supplement

CHARACTERISTICS AND EFFECTS

Is the main construction material for bones and teeth and 99% of calcium in our body is found in bones and teeth. Our body cannot produce calcium, therefore we must receive it from nutrition

Is essential for good calcium absorption and vitamin K₂ ensures that calcium stays in the bones and does not go to the soft tissue such as blood vessels

Also helps to maintain the formation and mineralization of the bones - it attracts other minerals as magnesium and phosphorus to the bones

Is a main component of joint cartilage repair tissue

Helps maintain healthy connective tissue, including joints

OSTEOMAX lemon taste chewable tablets contain 6 active ingredients that help maintain healthy bones, connective tissue and joints.

Vitamin D is crucial for the efficient absorption of calcium. Without adequate Vitamin D, even if calcium intake is sufficient, the body may not absorb it well, leading to weakened bones and joints. The collagen, zinc, cuprum supports cartilage structure, helps to improve joint mobility and flexibility, can help reduce inflammation in the joints, providing relief from pain and discomfort. Osteomax provides a balanced approach to bone health as it contains essential nutrients needed for a healthy musculoskeletal system, supporting both bone strength and joint function. Osteomax's formula is beneficial for those recovering from fractures, joint cartilage problems helping speed up the healing process. It is also ideal for individuals with bone thinning.

Scientific Proof

COMPOSITION

	1 tablet contains
Calcium	400 mg (50%*)
Collagen	20 mg
Zinc	7,5 mg (75%*)
Cuprum	1000 µg (100%*)
Vitamin K ₂	25 µg (33%*)
Vitamin D ₃	25 µg (100%*)

*NRV_s- nutrient reference values

DOSAGE

Chew 1 tablet 2 times per day.

Prostosan forte

30 CAPSULES

Food supplement

CHARACTERISTICS AND EFFECTS

Contributes to normal testosterone concentration in blood, normal fertility and reproduction

Contributes to normal function of muscles

Helps to maintain normal prostate and urinary tract function, as well as healthy bladder and prostate

COMPOSITION

	1 capsule contains
Palmetto-Palme (Sabal palmetto) extract	160 mg
Rye (Secale cereale) pollen extract	120 mg
Mix phytosterols (40% beta sitosterol)	50 mg
African prune (Pygeum africanum) extract	50 mg
Common Seabuckthorn (Hippophae rhamnoides) extract	24 mg
Ginseng (Panax Ginseng) extract	20 mg
Zinc	5 mg (50%*)
Vitamin D ₃	6,25 µg (125%*)

*NRV_s - nutrient reference values

DOSAGE

Take 1 capsule 2 times per day with meals.

Prostosan forte is a balanced combination of herbal extract which supports the prostate and urinary track functions, increases testosterone level in the blood and improves the condition of hair by reducing the hair loss.

Supports prostate health, improves urinary flow, and reduces urgency, especially at night. It is especially suitable for men in their 40s and older, helping them manage age-related prostate changes and reduce the risk of prostate conditions.

Scientific Proof

Potenzine superior

30 TABLETS

Food supplement

CHARACTERISTICS AND EFFECTS

Helps to maintain sexual function, stamina and energy

Helps to increase libido and sexual performance

Help to maintain normal fertility and testosterone level in the blood

Potenzine superior composition is designed to maintain a masculine strength and energy. Helps to maintain testosterone levels naturally, promoting better physical performance and overall strength.

Contains L-arginine, which helps enhance nitric oxide production, promoting better blood circulation and improving physical.

Scientific Proof

fertizer male.

30 SACHETS

Food supplement

CHARACTERISTICS AND EFFECTS

Contributes to normal fertility and reproduction

Helps to maintain the growth of maternal tissues during pregnancy

Contributes to the normal functioning of the nervous system and contributes to normal energy-yielding metabolism

Contributes to normal spermatogenesis

Contributes to normal energy metabolism

COMPOSITION

female.	1 sachet contains
L-carnitine	698 mg
L-arginine	500 mg
Vitamin C	90 mg (112%*)
Vitamin E	30 mg α-TE (250%*)
Iron	7 mg (50%*)
N-acetyl-L-cysteine	50 mg
Selenium	200 µg (364%*)
Zinc	4,8 mg (48%*)
D-pantathenate	5 mg (48%*)
Bitamin B ₆	2 mg (148%*)
Vitamin D	5 µg (100%*)
Vitamin B ₁₂	2,5 µg (100%*)
Folic acid	200 µg (100%*)
Vitamin A	1,5 µg
Copper	0,5 µg

*NRV- nutrient reference values

male.	1 sachet contains
L-carnitine	3400 mg
L-arginine	250 mg
L-glutathione	100 mg
Coenzyme Q ₁₀	40 mg
Zinc	37,5 mg (375%*)
Folic acid	234 µg (117%*)
Selenium	110 µg (200%*)
Vitamin B ₁₂	2 µg (80%*)

*NRV- nutrient reference values

Fertizer a potent source of antioxidants that actively protect reproductive cells from oxidative stress, boosting fertility and promoting overall reproductive wellness.

DOSAGE

1 sachet per day. Pour the content of 1 sachet into a glass of water, mix, dissolve and drink.
